9. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- Andrew was a great TA for this course. His sections provide a good summary to the week's learning and he was active in answering questions and providing good examples. He was also very accessible after class via email.
- Great instructional assistant, explanations were always clear and really helpful.
- he is really good at math
- I feel like section would be more helpful if the material focused more on example problems, rather than focusing on understanding concepts.
- Was extremely helpful with some extremely difficult problems and helped guide students through the homeworks. Was very available and stayed after office hours quite a bit to help me.

Thanks for the quarter.
